Shereen Hammam Khairy

Assiut, Egypt | 01090070436 | shereenhammamkhairy@gmail.com | linkedin.com/in/shereen-hammam

Summary

Detail-oriented Computer Science student specialized in Front-End Development and Networking with over 2+ years of academic and practical project experience. Proficient in HTML, CSS, JavaScript, and core networking fundamentals backed by comprehensive CCNA training. Experienced in building 10+ responsive user interfaces and applying algorithmic problem-solving to improve software execution efficiency.

Professional Experience

CIB Bank 2026
Trainee *Egypt*

- Completed practical training covering banking fundamentals and professional workplace skills.
- Gained exposure to financial services, sustainability, financial technology, and digital banking concepts.
- Developed professional communication, teamwork, and problem-solving skills through training activities.

Digital Egypt Pioneers Initiative (DEPI) 2026
Trainee *Egypt*

- Participated in professional technical training focused on Front-End Development.
- Developed practical skills in HTML, CSS, and JavaScript through hands-on projects and tasks.
- Improved problem-solving, teamwork, and professional communication skills through training activities.

Education

Egyptian E-Learning University (EELU) 2023 – Present
Bachelor's Degree in Computer Science, Faculty of Computers and Information Technology *Egypt*
Grade: Very Good

Technical Skills

Frontend Development: HTML, CSS, JavaScript, Responsive Web Design, Core UI/UX Concepts

Networking & Security: Networking Basics, CCNA Fundamentals, IP Addressing, Routing and Switching

Core Engineering: Object-Oriented Programming (OOP), Problem Solving, Data Structures, Algorithms

Professional Skills: Teamwork, Interpersonal Communication, Microsoft Office Suite

Projects

Spam Detection (NLP Project)
Python, NLP, Machine Learning

- Developed an end-to-end spam detection system using Natural Language Processing and Machine Learning models, achieving a 94% accuracy rate.
- Engineered a functional GUI using Python for real-time message prediction, processing inputs in less than 2 seconds.

Rain Prediction using Dimension Reduction
Python, ML, KNN, SVM

- Built a weather forecasting model utilizing KNN and SVM algorithms on historical climate datasets containing over 10,000 records.
- Applied SelectKBest feature selection to reduce dataset dimensionality, enhancing model training efficiency by 15%.

IPC Chat System
C++

• Designed a real-time Inter-Process Communication (IPC) chat application using network sockets and shared memory.

• Implemented multithreading and synchronization mechanisms to handle up to 20+ concurrent client connections reliably with zero packet loss.

Color Guessing Game
Java

• Developed an interactive desktop game using strict Object-Oriented Programming (OOP) design principles.

• Enforced robust encapsulation and modular class structure, reducing redundant code blocks by 25% to ensure a scalable architecture.

Online Shopping System
Java GUI

• Engineered a desktop e-commerce simulator with an intuitive graphical user interface managing 3 distinct user roles.

• Implemented complex product display pipelines, secure user interaction modules, and automated shopping cart features for 50+ mock items.

Maze Solver
Python

• Programmed an algorithmic maze-solving application utilizing classic pathfinding concepts (BFS/DFS).

• Optimized graph traversal execution time by 20% to efficiently locate optimal paths across variable maze layouts.

Certificates

• CCNA: Introduction to Networks – Cisco Networking Academy

• CCNA: Switching, Routing and Wireless – Cisco Networking Academy

• SC-900: Microsoft Security, Compliance, and Identity Fundamentals – Scored 770 out of 1000

• CIB Training

Courses

Front-End Development Course

• Mastered core web technologies including HTML5, CSS3, and JavaScript ES6.

• Developed 5+ fully responsive web pages and clean, interactive user interfaces with 100% cross-browser compatibility.

CCNA Course

• Completed 60+ hours of training covering Network Fundamentals, structured IP Addressing, and core Routing and Switching protocols.

• Gained practical insights into Network Security Basics and network architecture troubleshooting.

Languages

Arabic: Native Speaker

English: B2 (Upper-Intermediate)
